

I seminari si terranno due volte al mese dalle 13:00 alle 13:40 in aula
seminari al II piano di l.go Donegani 2 (ex Wild)

Italian pigmented rice varieties: an overview on the phenolic composition, nutraceutical potentiality and technological aspects

06 marzo 2019

Monica Locatelli (UNIUPO – DSF)

The importance of being a bitter natural compound

20 marzo 2019

Federica Pollastro (UNIUPO – DSF)

Macrophage plasticity in inflammatory diseases and cancers

03 aprile 2019

Chiara Porta (UNIUPO – DSF)

Mono- and multi species biofilm infections on medical devices: prevention and eradication strategies by microbial biosurfactants

17 aprile 2019

Chiara Ceresa (UNIUPO – DSF)

ADME properties as an useful tool in development of new bioactive substances: applications and perspectives

08 maggio 2019

Silvio Aprile (UNIUPO – DSF)

Microencapsulation: principles and practice

22 maggio 2019

Andrea Foglio Bonda (UNIUPO – APTsol)

The hidden world of minor cannabinoids: our contribution to the synthesis and discovery of novel bioactive derivatives

05 giugno 2019

Diego Caprioglio (UNIUPO – DSF)

Fighting diseases with protein structures

19 giugno 2019

Davide Ferraris (UNIUPO – DSF)

Boron Neutron Capture Therapy: the renaissance of an old anticancer treatment

03 luglio 2019

Daniela Imperio (UNIUPO – DSF)

Targeting aldehyde dehydrogenase 1A3 in gliomas by using curcumin-based probes

17 luglio 2019

Silvia Garavaglia, Alberto Minassi (UNIUPO – DSF)
