

I seminari si terranno due volte al mese dalle 13:00 alle 13:40 in aula
seminari al II piano di l.go Donegani 2 (ex Wild)

Pharmacogenetics and genetics of migraine: our contribution to the field

03 ottobre 2018 Sarah Cargin (UNIUPO – DSF, CRIFF)

Role of the epigenetic modulators KDM6B and EZH2 in malignant mesothelioma

17 ottobre 2018 Giulia Pinton (UNIUPO – DSF)

From mass spectrometry to biochemistry: in vitro and in vivo applications

07 novembre 2018 Marcello Manfredi (UNIUPO – DISIT, CAAD)

MORPHEUS: an automated tool for unbiased and reproducible cell morphometry

21 novembre 2018 Federico Ruffinatti (UNIUPO – DSF)

Relazioni struttura-attività del diterpene antitumorale EBC-46

05 dicembre 2018 Giovanni Battista Appendino (UNIUPO – DSF)

Nucleotide Excision Repair and direct DNA damage reversal in Mycobacterium tuberculosis: a biochemical and structural perspective

19 dicembre 2018 Riccardo Miggiano (UNIUPO – DSF)

Real World Evidence: quanto è davvero reale?

09 gennaio 2019 Francesco Barone Adesi (UNIUPO – DSF)

A new possibility on acute myelogenous leukemia (AML): targeting myeloid differentiation using potent and innovative human dihydroorotate dehydrogenase (hDHODH) inhibitors

16 gennaio 2019 Marco Lucio Lolli (UNITO)

Lipotoxicity-mediated disruption of adult hypothalamic neural progenitor cells as a potential contributor in Metabolic Syndrome

06 febbraio 2019 Heather Bondi (UNIUPO – DSF)

Regulation of neuronal protein expression and function by astroglial calcineurin

20 febbraio 2019 Laura Tapella (UNIUPO – DSF)
